Mott Haven provides a safe, nurturing learning environment that gives over-age, under-credited students a fresh start at earning their high school diploma. Our community empowers students who have had difficult school experiences to move forward in a positive direction - that they can learn from their past and are not bound by it. Our students graduate with a high school diploma, prepared for postsecondary success in college or career in order to become positive leaders in their community.

You cannot change the past, but the future  
is yet in your power
